

Get on the Right Track for Growth

Introducing **BNSF** **Logistics Center Sweetwater**

Grow Your Business in Texas

Expand your reach and grow your business with BNSF Logistics Center in Sweetwater, Texas. The **75-acre facility with 40,000 feet of existing rail infrastructure** is just outside of the Permian Basin and gives you direct access to the most fluid rail network in the country. Transload options are currently available today with Cape & Son for a wide variety of products including bulk, dimensional, and liquid. Get a competitive edge and ship with ease when you partner with BNSF.

Shovel-Ready. Rail-Ready. Success-Ready.

BNSF Logistics Centers offer direct-rail service in multi-customer, multi-commodity business parks. Unlike private business parks, BNSF invests directly in the development of the facility to create sites that can help you reach new markets in no time.

Saves Time & Money

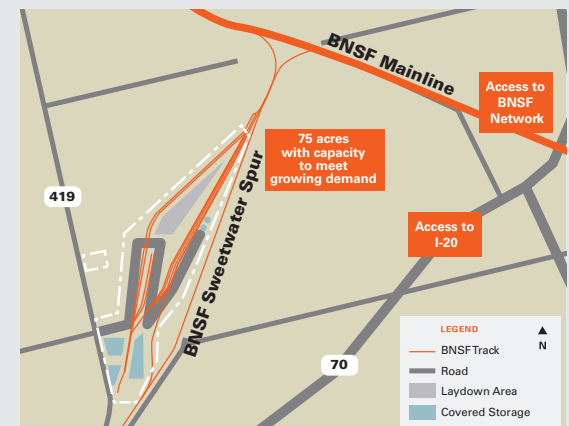

- Offers transload options
- Additional land available for development
